URBAN TEAM

_

FINAL!

Subject

Universal Space?

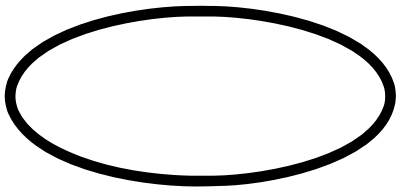

Actually, it doesn't have exact definition

We define simply,

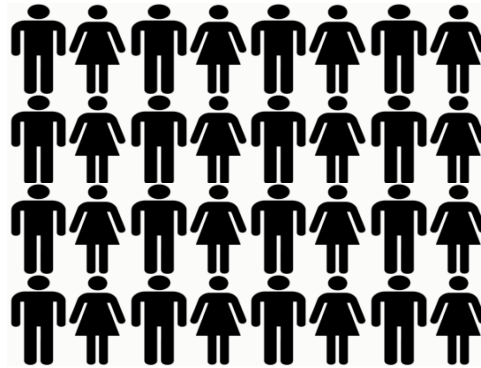

The space that performs more than two purposes.

Subject

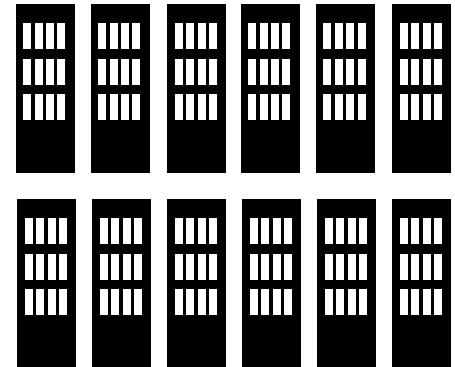

In URBAN,

Limit of land

SO many people

SO many building

Subject

In URBAN,

Traffic problem 

Children raising problem 

Environment problem 

Openspace lack 

Parking problem 

Elder problem 

Public support system lack 

Subject

So,

We need to have Universal space

IDEA _ TAIWAN

JUNGLE CITY

Example _ JAPAN

Example _ JAPAN

**Yatai – Market
Mura – Village**

Started in 2003

Started in unused space

in front of Tokyo Sankei Building

→ **Now there are 17 places around Tokyo**

Example in Japan:

Neo Yatai Mura

Example _ JAPAN

MOBILE CATERING?

Mobile catering provides food during lunch time

- In business district... It is hard to find places to have satisfying lunch.
- Neo Yatai Mura provide delicious lunch **smoothly** and **cheaply** !

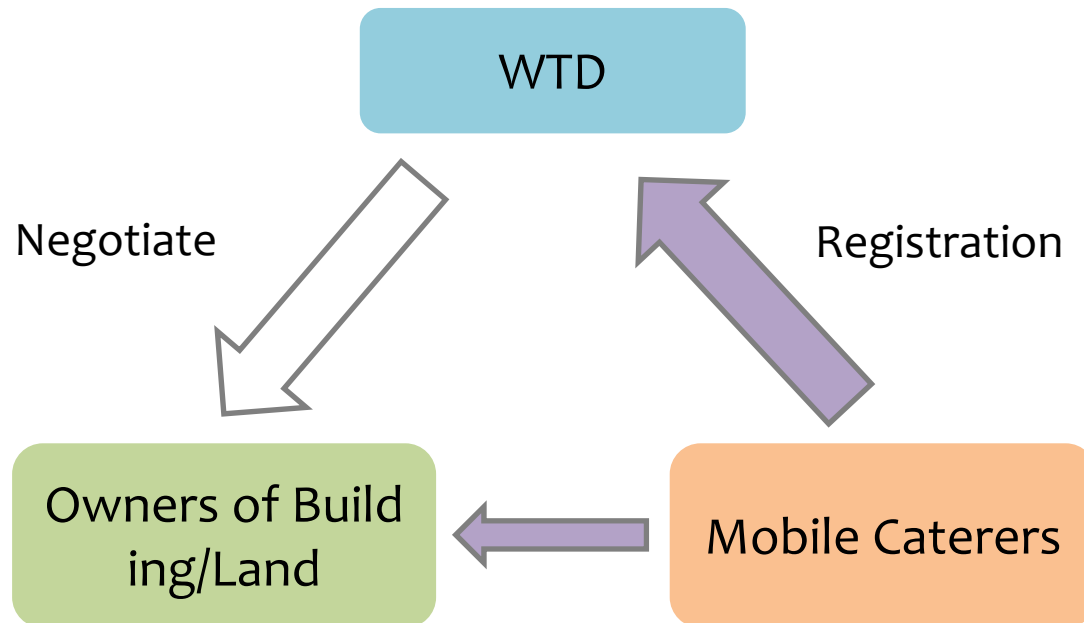

Example _ JAPAN

OPERATING SYSTEM?

Operator: **Workstore Tokyo Do Co., Ltd**

WTD provides public spaces for registered mobile caterers.

About 300 mobile caterers are registered in this system

Example _ JAPAN

BENEFITS?

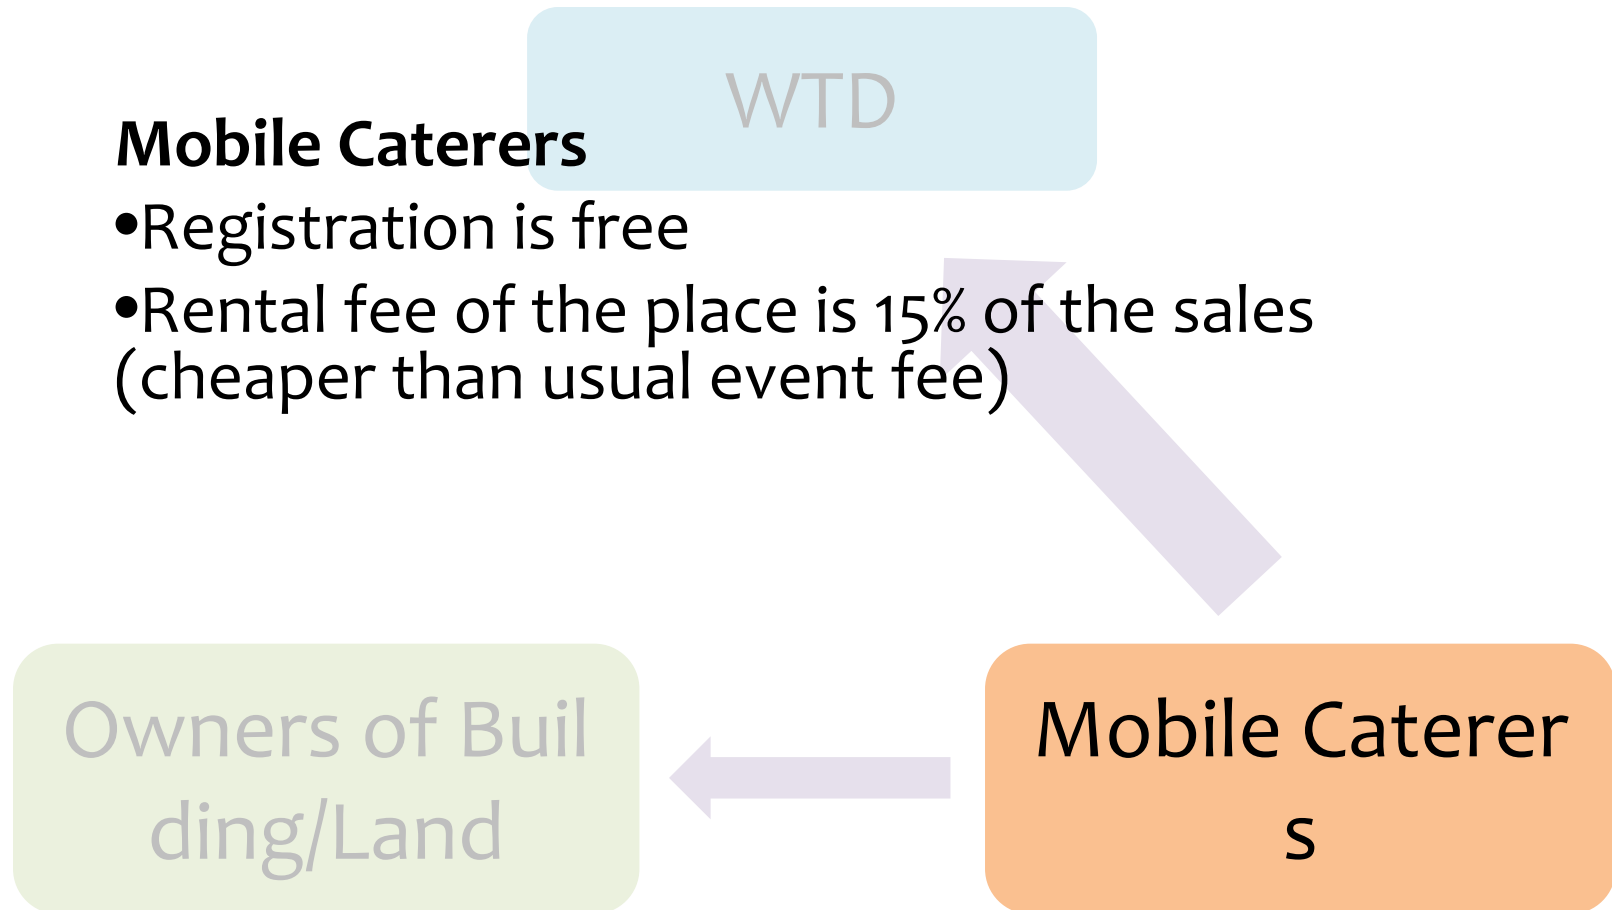

Mobile Caterers

- Registration is free
- Rental fee of the place is 15% of the sales (cheaper than usual event fee)

WTD

Owners of Building/Land

Mobile Caterers

Example _ JAPAN

BENEFITS?

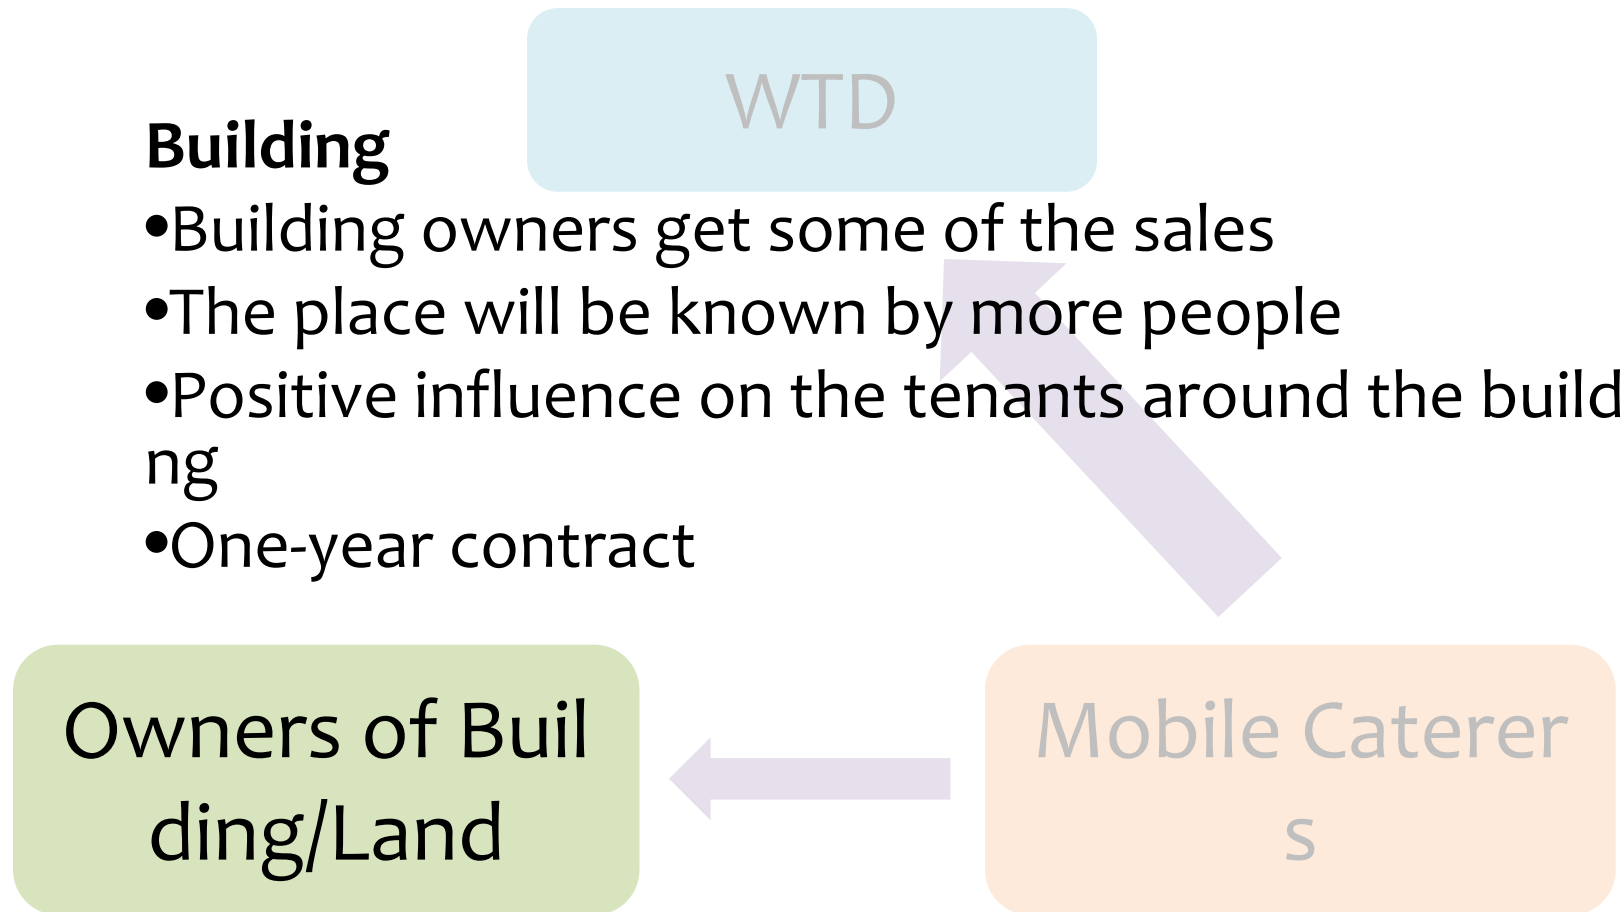

Building

- Building owners get some of the sales
- The place will be known by more people
- Positive influence on the tenants around the building
- One-year contract

WTD

Owners of Building/Land

Mobile Caterers

Example _ JAPAN

KEYPOINT?

- It can be flexible in the public space by temporality
- Several unused spaces can be designed at the same time
- Synergy effect with other shops

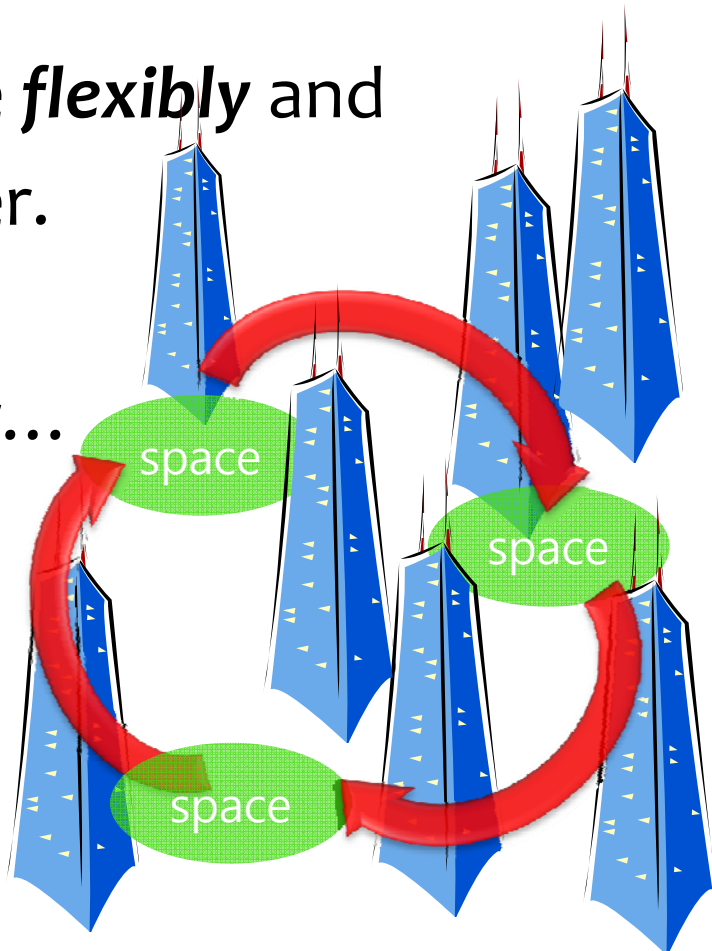

IDEA _ JAPAN

City jungle has small space between buildings.

We should use these unused space **flexibly** and **efficiently** by **connecting** each other.

We can use these pocket space for...

- Open cafes
- Concert
- Magic show
- Play park for children etc.

Example _ KOREA

Guro Noridan Creation Plant

BEFORE **Empty space**

Materials storage AFTER

Example _ KOREA

BIKE HANGER

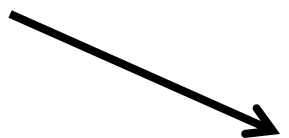

Example _ KOREA

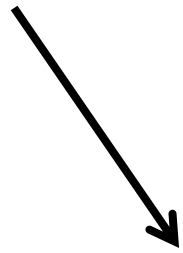

BIKE HANGER

1. Use of free space

2. Solution for traffic jam

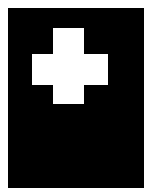

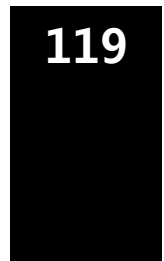

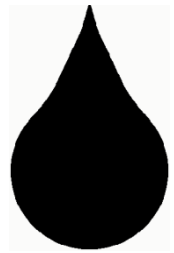

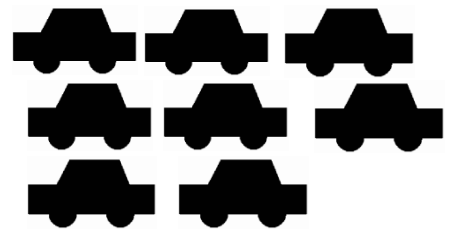

3. Preventing theft
